PROFESSIONAL SUMMARY

Web Developer, UI/UX Designer, and Game Developer with a strong foundation in both design and development. I specialize in building interactive, user-friendly web applications and digital experiences across multiple platforms. My approach centers on iterative design and rapid prototyping, allowing me to quickly gather feedback and deliver solutions that are both functional and visually appealing.

PROFESSIONAL EXPERIENCE

Digital Technician \nPerio Protect | August 2025 - Aug 2026

- Engineered and streamlined the end-to-end digital manufacturing pipeline for dental devices, reducing lead time from raw dental scan data to a finalized 3D printable model.
- Implemented and managed a centralized library of standardized 3D dental models, utilizing Scan to Model, Meshmixer, and proprietary AI sealing software from HeyGears to ensure consistency, reusability, and rapid design iteration across all custom patient devices.
- Developed and documented new procedural protocols for integrating the 3D model library into the existing workflow, standardizing design practices and facilitating quicker onboarding for new technicians.
- Applied advanced knowledge of digital geometry and image processing to ensure the accuracy and stability of all 3D models before transfer to the additive manufacturing (3D printing) stage.

Sales Operations Specialist

Charter Communications | May 2023 - September 2024

- Entered orders into Salesforce, generated contracts, and ensured processes were followed and completed after signature to ensure order flow could proceed with ease and efficiency.

Salesforce Developer

Express Scripts | August 2021 - May 2023

- Created and implemented new features into the Salesforce Sales Cloud platform.

Technical Solutions and Tools Analyst

Expedia | November 2019 - October 2020

- Front-end developer for internal tools created for the Quicktools platform that assist agents with troubleshooting and technical inquiries. Answered questions and performed troubleshooting for the Expedia and Hotels.com sites.

Intern Developer

Anthem | March 2018 - October 2018

- Gathered and updated documentation for programs alongside the Business Systems Technology team, including developers and system architects, for the conversion project to migrate their systems from IBM mainframes to Oracle databases.

Junior Web Developer

Missouri State University | June 2014 - May 2015

- Designed and developed web applications for use by the school, such as a Volunteer KPI tracker.

PROJECTS

Quicktools — Internal technical tools platform

Expedia

- Implemented a front-end reactive framework using Bootstrap 4 on a Python Flask web platform. Prototyped, designed, and developed the visual style using Adobe Photoshop and Adobe XD for the user experience, and customized the Bootstrap 4 framework to implement the new design into production.
- Technologies: Python, Flask, Bootstrap 4, JavaScript, Adobe Photoshop, Adobe XD

KPI Tracker — Internal report for student volunteer hours

Missouri State University - West Plains

- Designed and developed a reporting tool using the Grails web application framework (Groovy language) to pull and display data for volunteer hours, sorted by project.
- Technologies: Grails, Groovy, SQL, Bootstrap

TECHNICAL SKILLS

Web Development: HTML (80%), CSS (75%), JavaScript (60%), PHP (60%), Bootstrap 4 (75%), SQL (70%), Salesforce development (75%), Python (70%)

UX/UI Design: Interactive Design (80%), Photoshop (75%), Illustrator (60%), Adobe XD (60%)

Game Development: Unity (80%), C# (75%), 3-D Modeling (60%), Java (60%)

EDUCATION

Bachelor of Science, Technology Management with emphasis in Virtual Media

University of Central Missouri, Warrensburg MO | May 2019

Associate of Applied Science, Computer Graphics and Programming with emphasis in Video Game Design

Missouri State University, West Plains MO | May 2015
